

7i-energy2

Created by Dr J E F Frost with EclipseCrossword by Green Eclipse Software — www.eclipsecrossword.com

Across

2. Can catch light. (9)
4. Fuel for nuclear power stations. (9)
5. Bunsen burner fuel from the North Sea. (3)
9. Fuel for nuclear power stations (7)
10. Gas needed to let fuel burn. (6)
12. Replacable in the short time once it is used. (9)
14. Energy from the moon's gravitational attraction for the oceans. (5)
15. Power from the crests and troughs on the sea. (4)
16. Fuel formed millions of years ago from dead plant matter. (4)
17. Transforms rotational kinetic energy into electricity. (9)
18. Renewable energy from harvesting plants for burning. (7)

Down

1. The energy from the Sun is transferred to the Earth by this process. (9)
3. Spins as water or air flows through it. (7)
6. Energy from the sun. (5)
7. Energy generated from disintegrating atoms. (7)
8. Process used to extract energy from combustible fuels. (4)
10. Fuel formed millions of years ago from dead sea creatures. (3)
11. Energy source from beneath the earth's surface. (10)
13. Most useful form of energy. (10)
